

Our pigment mixer vs Mixbox vs Spectral.js

Identical sRGB inputs and mixing factors • Spectral.js defaults • fixed Rust release, no retuning

Gradients: t = 0.01–0.99. Mixbox: approximate JPEG capture. Spectral.js: direct API RGB8, tinting strength 1, gamut method map.

Sources: official Mixbox demo and spectral.js@3.0.0 • 29 Sep 2026 • similarity between models is not validation against real paint.
